The organizers shall draw up a departure list and give it to all participants.

Subsequent meetings - During the competition, depending on the issues to be discussed, daily meetings shall be summoned by the organisers (time to be determined by the organizers).

The organizing Nation shall only be responsible for insurance, boat equipment and anchor for the boats made available by the organizers. **The anchor must have an adequate size for the boat it will be used on; the anchor must be supplied with a cord of minimum 25 metres long.**

Starting from 2021, boats made available by the organizers shall be equipped with an echo sounder able to scanning vertically (bottom) and supplied with a screen of at least 7 inches (18 cm). In the event of echo sound malfunctioning, boat shall be considered as damaged, so it has to be substituted.

The material required to signal dangerous situations for the boats shall also be provided by the organizers.

Should any participating Nation wish to rent boats, it should inform the organizing Nation at least two months before the competition start.

All personal or rental boats shall be handed over to the organisers upon the arrival of the Nations at the championship venue. All personal boats shall be made available to the teams after the end of the championship, and the rental boats shall be returned by the organisers.

During both the trainings and the competitions, each Nation shall be allowed to put maximum three boats in the water.

During the two training days, the team members, the captain and the vice-captain may be on board their national teams' boats (on condition that these latter are homologated for 4 persons).

-9- Competitors may reach the venue by their personal means of transportation.

One steward shall be present on each boat. The organizers have the obligation to supply a sufficient number of stewards tallying the number of boats in competition. Only the stewards of the "pairs" of the organizing Nation shall be foreigners and they shall be drawn among the present Nations. These stewards cannot be selected among captains neither reserves. Those who volunteer to act as the stewards of the organising Nation's "pairs" shall have to guarantee their presence for all legs.

In case of force majeure, to fill the lack of stewards, the Jury can appeal the present Nations for appointing, among their members, the necessary stewards. Stewards must obligatory be of a different nationality than the "pairs" of their competence.

It shall not be allowed to use reserves as stewards, except for the last leg.

There shall be general stewards with their own boats (1 boat every 10 competing boats), and only such boats will be allowed to tow and repair "competing" boats.

The owners of boats directly rented outside the organization cannot act as stewards, as drivers or be present on board of their personal boat during the training or competition days.

Starting from 2021, a competitor holder of a boat license and of all necessary documents with the owner's permission he can drive the boat made available by the organizers. In any case, the boat owner will continue acting as steward.

The stewards shall have thorough knowledge of the rules of the competition.

-10- The competitors shall abide by the rules on legal Black Bass size limits in force for the competition (national Rules). Said minimum size parameters shall be specified in the program drawn up by the organisers, and shall be reminded at the team captains' meeting.

When some particular national or regional rules are also in force, they shall be communicated to all nations registered to the championship, by annexing them to the competition program.

- 11- The competition shall take place in three legs of 8 or 9 hours each, depending on the competition venue.

In the event of a forced interruption (e.g. a thunderstorm, demonstration, natural disaster, etc.), the Jury may validate the leg, provided that it lasted at least half of the time envisaged for the whole leg.

The Jury can decide to reduce the duration of the leg if the competition schedule does not allow continuing angling for the 8 or 9 scheduled angling hours.

- 12- Each competitor is expected to fully abide by the competition rules. **When some particular national or regional rules are also in force, they shall be communicated to all nations registered to the championship, by annexing them to the competition program.**

- 13- Only no-kill angling shall be performed, using artificial baits (pork rind is allowed). Any kind of artificial baits are allowed, even those ones equipped with hooks and with grapnels (with three or four tips), provided they do not cause multiple catches (for example the use of the "Spinner Bait" or similar is authorized, while the use of the "Alabama Rig" or similar is prohibited).

Only live fish shall be considered for the ranking.

- 14- All forms of fish feeding are forbidden. Only alluring substances and surface oils to be spread on artificial baits shall be allowed.
- 15- All competitors are required to be able to swim.
- 16- Using echo sounders and GPSs is allowed. Using earphones, telephone or walkie-talkies is allowed to anglers but is forbidden to stewards, who can use them only in case of force majeure.

- 17- The competitors shall be the only ones allowed using landing nets. The use of a landing net is compulsory to recover fish; grapnel, Lip Grippers and Boga Grips are prohibited for recovering a fish. They can only be used for removing an artificial bait out of a fish's mouth.
- 18- Besides having a federal fishing licence, the competitors shall also comply with all rules and regulations on navigation, on the ownership of a boat, and with the fishing law in force. Depending on the type of boat used, the pilot(s) shall hold the required licence(s). Before putting the boats into the water, the people concerned shall be asked to produce all the documents proving their authorization to navigate. The organizers shall have all administrative authorizations in place allowing the boats involved to navigate.
- 19- The fishing area and the area reserved for the departure and arrival of the boats shall be marked and clearly visible. Competitors may navigate and fish on the whole authorised waterbody surface. Should it not be possible to use the whole waterbody surface, the fishing area shall be clearly marked (buys) before the first official training day. It is however recommended to use transponders, if possible.
- 20- All boats shall return to the start area and near the jetty at the time envisaged and fixed at the beginning of the leg. In said area, all boats shall circulate at low speed.

If a problem to a boat or to an engine provided by the organizers occurs during the competition - i.e.: break of battery, low fuel, or any kind of other technical problem - the team concerned may be authorised by the International Jury to extend its fishing time by

20 or 40 minutes more. This rule shall apply to teams belonging to the 1st or 2nd departure groups.

Using drones is prohibited, both during competition and trainings, excepting the special cases authorized by the International Jury, on advice of the Technical Committee.

It is strictly forbidden to diffuse any films shot during trainings and during the three championships legs on any social network, facebook or other, on any web site, or whatever. Any possible diffusion shall be previously authorized by the anglers in question.

Only the holders of a press licence or of any other accreditation document will be entitled to have a badge for having access on the venue.

- 23- The distance between boats during the competition in a lake or in an artificial basin shall be of at least 50 metres (both during angling and when navigating near another "pair"). The distance between boats during competition in a canal or a river shall be of at least 50 metres during angling and of at least 20 metres during navigation. **When the passage is less than 50 m large, the "pair" during angling in that particular spot will be forced to let pass another boat if this latter has the possibility to fish at one spot located at a distance of 50 m minimum from them. In this case, the "pair" during angling shall indicate at which side the "pair" in transit can pass through. The passage of the "pair" in transit at a specific side must be done with electric engine. In the case the "pair" 's boat in transit does not have any electric engine, the passage can be done with the principal engine (internal combustion engine) at a very low speed.**

One boat is considered stationary on a fishing spot when the principal engine (internal combustion engine) is off and the electric engine is lowered or the anchor is thrown into the water. The boat, which stops first on a fishing spot, takes the precedence. When the electric engine is lowered into the water, short distance movements with internal combustion engine are allowed; however, in that case fishing is not allowed.

Such catch shall be weighed separately, and its weight shall be deducted from the total weight of the validated fish. Measurements shall be taken from the tip of the closed mouth to the extremity of the open tail of the fish, in its natural position.
- 27- Each caught fish shall be maintained alive in a bowl or a thermal container of a capacity of 50 litres of water maximum featuring an oxygen and air circulation system. After training and between the different legs, the bowl shall be kept safe, locked - if possible - sealed by means of a sheet of paper signed by the competitors and taped to the

container. The competitors shall remove themselves the seals they have placed at the beginning of the competition.

- 28- The catching of a fish is valid even if it is accidentally hooked outside its mouth. Any fish caught but not hanging from the angler's line shall not be deemed valid and shall be put back into the water.
- 29- Only the catch of Black Bass (*micropterus salmoides*, *micropterus punctulatus*, *micropterus dolomieu*, *micropterus notius*, *micropterus coosae*, *micropterus treculi*, *micropterus cataractae*, *cichla temensis*, *cichla ocellaris*, *cichla intermedia*, *cichla orinocensis*, *cichla monoculus* and *cichla pinima*) shall be considered valid; the number of catches is limited to 5 for each leg. The anglers of the "pair" shall stop fishing until one of the 6 fishes is put back into the water. In no event shall a fish container contain more than 5 fishes.
- 30- Fly-fishing with mouse-tail end is forbidden.
- 31- The boats for the Jury, the stewards and the security staff shall be made available by the organizers.
- 32- Any boat that does not show up at the time envisaged for its departure shall be authorised to start last, but its return time shall remain unchanged.

When the first signal is given - 30 minutes before the departure of the boats - the anglers shall gather at the edge of the departure zone. The roll shall be called, the general steward shall tell the exact time, so that both the stewards and the anglers may synchronise their watches. Then, the anglers shall be allowed to get on-board their boats, and the first group shall line up at the start. A second signal shall be given for the boats of the first group to start heading to the angling area; then the boats of the second group shall sail off, and then those of the third group.

- 33- For each minute of delay against their scheduled return time, 0.500 kg will be deducted from the total weight obtained by a "pair". Any "pair" arriving with a delay of 15 minutes or more shall be ranked last for the relevant leg.
- 34- The boats will be numbered (two sticker numbers shall be stuck on each side of the boats, and they shall be clearly visible). The organizers shall keep copies of the sticker numbers to be stuck on reserve boats, if needed.
- 35- The boats shall sail by using either thermal or electric engines, but the safety rules and the local speed regulations shall be complied with at all times.
- 36- All boats shall have on board the compulsory equipment required pursuant to local rules and F.I.P.S.e.d. rules. Lacking such equipment, the boats shall not be authorized to navigate.
- 37- All boats shall help any nearby boat in trouble or danger. When that happens, any fish caught and kept on the endangered boat may be transferred, in the presence of a member of the Jury, to the place where the caught fish shall be weighted and validated.

Land docking and docking to the boats of other competitors is forbidden. A general steward or a member of the Jury may authorise exceptions in cases of absolute need.
- 38- Deliberate foul hooking of fish is prohibited.
