

**13th CARNIVOROUS ARTIFICIAL BAIT BOAT ANGLING WORLD CHAMPIONSHIP,
Slapy reservoir, Czech republic, October 3 – 9, 2022**

held under the patronage of Czech Anglers Union and Territorial Fishing Association of Prague

We are glad to invite you to the Czech Republic to spend amazing moments at one of the famous Czech fisheries – Slapy reservoir.

This reservoir is well stocked with all common predatory fish, especially perch and zander. Good catches are made here every year and we are sure there will be some for you too. We will do our best to make the Championship run as smoothly as possible so you could make not only beautiful fishing memories but also build new friendships. Pack your rods, and some of the fishing luck and let's come to the Czechia!

ABOUT SLAPY RESERVOIR

Reservoir Slapy is part of the Vltava river cascade with a canyon-shaped water body and several shallow beaches. The length of stretch is over 40 km, the surface area is around 11 square kilometers and the maximum depth is 58 m. Water clarity is very good year-round, even in case of high water.
