ANTI-DOPING INFORMATION TUE REQUESTS

The athletes participating in the Championship, with the registration, implicitly accept all WADA anti-doping rules.

A Therapeutic Use Exemption (TUE) is a certificate granted by an anti-doping organization (IF for international-level athletes, NADO for national-level athletes and Major Event Organisation (MEO) for athlete participating in an MEO event). The certificate is for a set prohibited substance, in certain dosages, with a limited period of validity. An application for a TUE must be based on a documented medical condition and diagnosis and the TUE will only be granted under strict criteria laid out in the International Standard of TUEs.

Athletes must absolutely avoid taking a medication with a prohibited substance without a valid TUE.

The presence of a prohibited substance or its metabolites or markers in an athlete's sample without a valid TUE is an Anti-Doping Rule Violation (ADRV), as are the use or attempted use of a prohibited substance or a prohibited method, possession, administration or attempted administration.

Athletes must therefore consult the Prohibited List:

https://www.wada-ama.org/sites/default/files/resources/files/2022list_final_en.pdf

Athlete whose illness or condition requires treatment with a prohibited substance or method must apply to ITA (International Testing Agency) for a Therapeutic Use Exemption (TUE) following the CIPS strict TUE application process. He/she shall then use the application form, which can be downloaded from the ITA website:

https://ita.sport/uploads/2021/02/ITA_TUE_Form.pdf

The TUE request has to be sent to the following address: tue@ita.sport

If the TUE is granted, the athlete will then be permitted to use the medication during the period of validity of the TUE without committing an Anti-Doping Rules Violation (ADRV).

Regardless of whether a TUE has been granted or not, athletes should always declare on the doping control forms filled out during sample collection any medications and supplements taken within the seven days prior to sample collection, and any blood transfusions in the three months prior for blood samples.

If a TUE has already been granted by a NADO or by a RADO, the Athlete in question does not have to apply for any additional CIPS TUE, as CIPS recognizes all TUE granted by NADOs and RADOs.
